Minnesota Institute for Sustainable Agriculture

This publication is part of a series developed by MISA, through its Information Exchange program, a clearinghouse of sustainable agriculture information and materials in Minnesota. These informational materials are accessible to the public by phone (toll-free), fax, e-mail, or online.

The Information Exchange works to bridge the gap between the need for timely, practical information about sustainable agriculture and existing resources and information; to identify gaps in research and education and direct funding and support to address them; and to promote education and discussion of issues relevant to the sustainability of agriculture.

To ensure that all of the Information Exchange's publications are applicable and user-friendly, they are developed by teams and reviewed by individuals who will use the material, including farmers, researchers, extension educators, and other agricultural community members.

Other publications in this series, which are available through the University of Minnesota Extension Service Distribution Center, include:

Collaborative Marketing: A Roadmap & Resource Guide for Farmers (BU-7539-S)
Discovering Profits in Unlikely Places: Agroforestry Opportunities for Added Income (BU-7407)
Hogs Your Way: Choosing a Hog Production System in the Upper Midwest (BU-7641)
Minnesota Soil Management Series (PC-7398-S)
Whole Farm Planning: Combining Family, Profit, and Environment (BU-6985)

Available directly from MISA:

Building a Sustainable Business: A Guide to Developing a Business Plan for Farms and Rural Businesses.
Resources for Beginning Farmers: Building a Sustainable Future.
Time, Soil, and Children: Conversations with the Second Generation of Sustainable Farm Families in Minnesota
Local Food: Where to Find It, How to Buy It
Poultry Your Way: A Guide to Management Alternatives for the Upper Midwest
Dairy Your Way: A Guide to Management Alternatives for the Upper Midwest
Minnesota Guide to Organic Certification
